

Mr. Powell,  
I am concerned over The Nat'l Assoc of Broadcasters petition 04-160.

Satellite radio, and XM in particular, IS the way of the future. Right now a decision has to be made - do we bog it down with such restrictions as 04-160 or do we allow it to grow into the people's radio?

I, as a satellite radio subscriber, appreciate the content that I get for 10\$ a month. Traffic and weather are two things that make XM satellite radio a tool for highway travel. I actually USE this stuff when I'm on the road.

Please, as a free citizen in a free country, I ask my government to show some restraint and please stay as far away as possible from my radio content. Do not, for the absolute wrong reason, pull weather and traffic reports from XM. Leave them there.

Thank you.  
Tom Porter.
